## Using Objective Centric Risk Assessment for SOX 404 and similar national requirements

- Understanding 5 primary assurance methods
- Completing macro level reliable financial statements assessments – key concepts
- Completing Line item/sub-objective assessments
- Reporting results to CEO/CFO/Board
- Benefits of using objective centric assurance for financial statements reporting

# Understanding the 5 Primary Assurance Methods

#### Macro Objective:

Ensure ABC's financial statements are materially reliable in accordance with applicable GAAP and, in the U.S., "internal controls" are "effective" in accordance with a "suitable" internal control framework, usually COSO ICIF 2013.

We strongly recommend that a macro risk assessment be done first; and then decisions made on the need for separate more detailed assessments of supporting subobjectives including important note and supplemental disclosures.

**UncertaintyStatus***line*™ Statement of an End Result Objective e.g. customer service, product quality, cost **End Result Objective** control, revenue maximization, regulatory compliance, fraud prevention, safety, reliable (Implicit or Explicit) business information, and others. **External and Internal Environment** Internal/External Context the organisation seeks to achieve its objectives. Threats to Achievement/Opportunities are real or possible situations that create Threats to Achievement/ uncertainty regarding achievement of the Opportunities? objective - both negative and positive Risk Treatments manage Risk Treatment Strategy uncertainty that the objective will be achieved by mitigating, transferring, financing, sharing, risk mitigators/controls or accepting risks and exploiting risk transfer, share, finance opportunities. (Selected consciously or unconsciously) Residual Risk Status information helps decision makers assess the acceptability of the retained risk position and the level of Uncertainty the objective will be achieved. Residual Risk Status/ (Status data includes performance data, Uncertainty potential impact(s) of not achieving the objective, impediments, and any concerns regarding risk treatments in place.) Is the Residual Risk Status/Uncertainty acceptable to the work unit? Management? Acceptable? The Board? Other key stakeholders? (i.e. managed within risk/uncertainty NO appetite/tolerance) Re-examine risk treatment strategy YES and/or objective and develop action plan Is this the lowest cost combination of risk treatments given our risk/uncertainty **Risk Treatment** appetite/tolerance? Optimized? NO YES - Move On @ 2023 Risk Oversight

#### Internal Control - Integrated Framework

#### **Executive Summary**

© Risk Oversight Solutions Inc.

© Risk Oversight Solutions Inc.

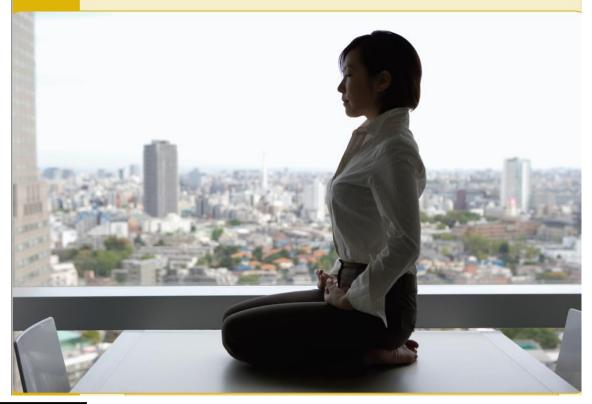

Research done by Institute of Management Accountants issued in 2006 4 years post SOX indicated not many companies could demonstrate with clarity how their financial reporting internal controls are, or are not, "effective" in accordance with the COSO Internal Control Integrated Framework

#### **Macro Level Assessment**

© Risk Oversight Solutions Inc.

Per COSO page 8 Executive Summary "an effective system provides reasonable assurance regarding achievement of an entity's objectives." "reasonable assurance" = acceptable uncertainty Objective Centric Risk and Certainty Management and UncertaintyStatusline have been designed to allow a fact-based determination of what's reasonable assurance/acceptable uncertainty. UncertaintyStatusline Risk Treatment Principles and sub-elements map directly to COSO 2013 ICFR

#### **Macro Level Assessment**

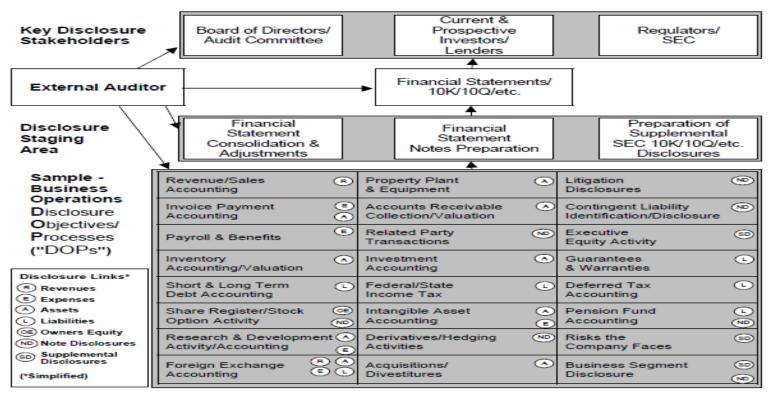

@ Risk Oversight Solutions Inc.

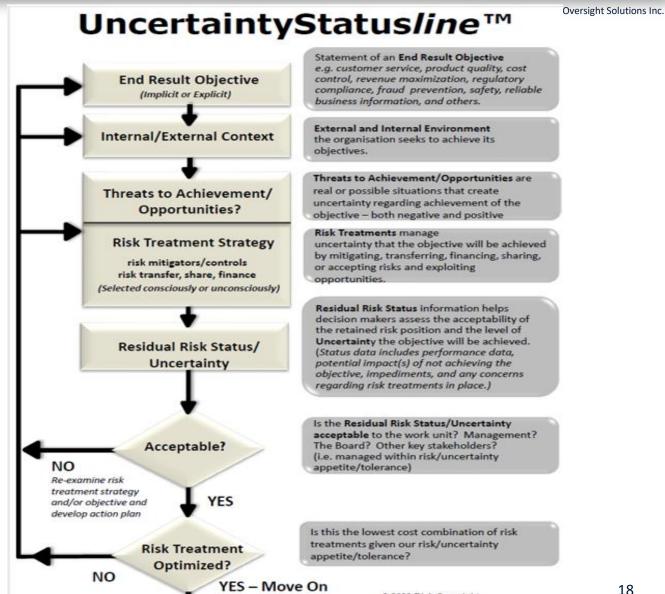

#### VISUALIZING THE GOALS OF SECTIONS 302 and 404

The fundamentals of sections 302 and 404 can be explained using the diagram below. The primary goal of the disclosure system is summarized in the purpose statement of SarbOx:

To protect investors by improving the accuracy and reliability of corporate disclosures made pursuant to securities laws, and for other purposes.

#### Sarbanes-Oxley Section 302 & 404 Overview

© Risk Oversight Solutions Inc.

## **Internal/External Context**

- Implications to the company's credit rating
- Implications to the company's reputation
- Implications to the company's cost of capital
- Personal implications to senior executives and board members
- Audit firm resignations/refusals
- Impact on the company's share price
- Personal philosophy of the company's CEO, CFO and Board of Directors
- Likelihood External Auditor Opinion on Financial Statements is wrong

#### **Internal/External Context**

© Risk Oversight Solutions Inc.

- 1. Detected error history external auditor
- 2. Detected error history management detected after release of statements
- 3. Detected error history management detected prior to release of statements
- 4. Complexity of accounting
- 5. Absolute dollar/unit of local currency value/impact of location/account
- 6. Detected error history regulators/tax authorities/customers/others
- 7. Detected error history internal audit
- 8. Detected/known errors in other companies in the same business sector
- 9. Amount of management judgment/subjectivity
- 10. Importance of account/location to security analysts
- 11. Importance of account/note disclosure to debt covenants
- 12. Susceptibility of account to fraud from insiders
- 13.Susceptibility of account to fraud from outsiders
- 14. Account/note linkage to the company's reward/compensation system

IDENTIFYING RISKS/THREATS TO ACHIEVEMENT

NOTE: refer to OCRUM learning module on identifying risks for information on the full range of risk identification methods available

- 1. Research/AI and observation
- 2. Company Specific History
- 3. Experience of senior level staff
- 4. Industry specific scenario analysis
- 5. Risk source analysis
- 6. Industry "CHECK LISTS"

# IDENTIFYING RISKS/THREATS TO ACHIEVEMENT Some statistically predictable risk examples. Ask Chat GPT for statistically significant risks.

- 1. CEO and CFO have significant financial incentives to falsify and/or inappropriately manage financial results.
- 2. Senior management has major financial incentives to direct backdating of stock options.
- 3. Senior management directs improper/fraudulent post-close journal entries to manage profits and/or hit earning targets disclosed to the market.
- 4. Management overrides controls to hit bonus targets or prevent loss of positions.
- 5. Audit Committees have financial incentives not to ask management tough questions.

© Risk Oversight Solutions Inc

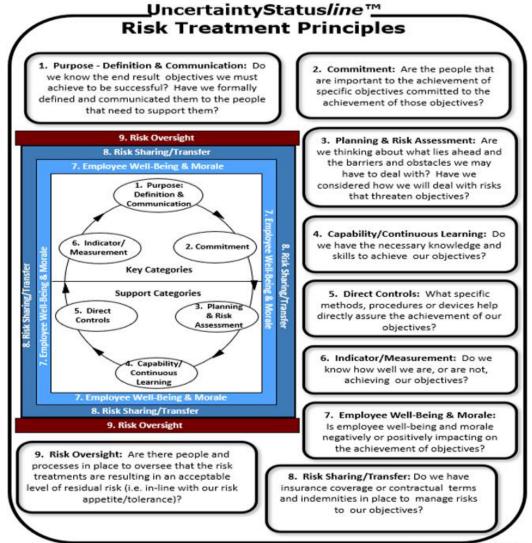

#### **IDENTIFYING RISKS/THREATS TO ACHIEVEMENT**

#### Some statistically predictable risk examples continued

- 6. Accounting staff are not current on accounting standards.
- 7. Management lacks the appropriate knowledge and skills to deal with accounting for complex or significant judgement related transactions.
- 8. In-house accounting personnel lack the necessary training and experience to deal with the scope of the organization's operations.
- 9. The external audit team's objectivity is compromised by conflicts of interest.
- 10. External audit team lacks appropriate knowledge/skills, and/or the courage to challenge management's assumptions.

#### **IDENTIFYING RESIDUAL RISK STATUS/UNCERTAINTY**

### Real Life Risk Examples

© Risk Oversight Solutions Inc.

 Threat to Achievement/Risk **Description:** Events, activities, current/known developments and contracts outside of the accounting department are not known and may affect financial statements.

#### Real Life Risk Examples

© Risk Oversight Solutions Inc.

 Threat to Achievement/Risk **Description:** Time constraints during close related to journal entry preparation and check, as well as reporting/analysis may cause human errors to go undetected.

#### Real Life Risk Examples

© Risk Oversight Solutions Inc.

 Threat to Achievement/Risk **Description:** Manual inputs from accounting personnel in the system are incorrect because of time constraints, volume/complexity of formulas, knowledge deficiencies (e.g. chemical usage, unbilled revenue).

#### **Completing Sub-Objectives**

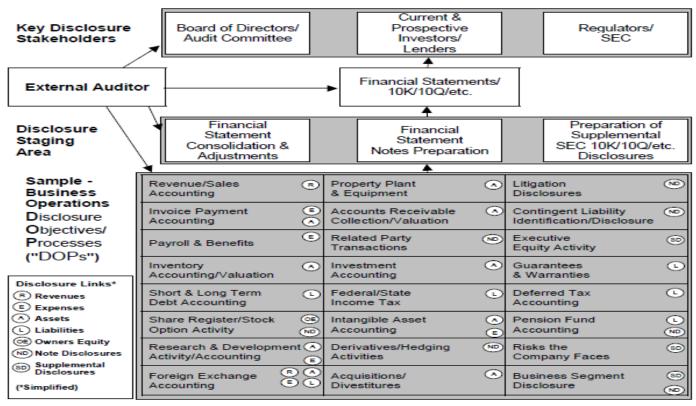

rsight Solutions Inc.

#### VISUALIZING THE GOALS OF SECTIONS 302 and 404

The fundamentals of sections 302 and 404 can be explained using the diagram below. The primary goal of the disclosure system is summarized in the purpose statement of SarbOx:

To protect investors by improving the accuracy and reliability of corporate disclosures made pursuant to securities laws, and for other purposes.

#### Sarbanes-Oxley Section 302 & 404 Overview

#### Completing Sub-Objectives

© Risk Oversight Solutions Inc.

## Deciding which disclosure line items warrant detailed risk assessment

- 1. Detected error history external auditor
- 2. Detected error history management detected after release of statements
- 3. Detected error history management detected prior to release of statements
- 4. Complexity of accounting
- 5. Absolute dollar/unit of local currency value/impact of location/account
- 6. Detected error history regulators/tax authorities/customers/others
- 7. Detected error history internal audit
- 8. Detected/known errors in other companies in the same business sector
- 9. Amount of management judgment/subjectivity
- 10. Importance of account/location to security analysts
- 11. Importance of account/note disclosure to debt covenants
- 12. Susceptibility of account to fraud from insiders
- 13.Susceptibility of account to fraud from outsiders
- 14. Account/note linkage to the company's reward/compensation system

#### Reporting to CEO/Board

## Concise reporting on which financial statement line items have the highest residual risk status/high uncertainty

| Current assets:   |    |         |  |
|---|----|---------|--|
| Cash and cash equivalents   | \$ | 20,289  |  |
| Short-term marketable securities  |    | 53,892  |  |
| Accounts receivable, less allowances of \$58 and \$53, respectively   |    | 17,874  |  |
| Inventories   |    | 4,855   |  |
| Vendor non-trade receivables  |    | 17,799  |  |
| Other current assets  |    | 13,936  |  |
| Total current assets  |    | 128,645 |  |
| Long-term marketable securities   |    | 194,714 |  |
| Property, plant and equipment, net  |    | 33,783  |  |
| Goodwill  |    | 5,717   |  |
| Acquired intangible assets, net   |    | 2,298   |  |
| Other non-current assets  |    | 10,162  |  |
| Total assets  | \$ | 375,319 |  |
| LIABILITIES AND SHAREHOLDERS' EQUITY:   |    |         |  |
| Current liabilities:  |    |         |  |
| Accounts payable  | s  | 49,049  |  |
| Accrued expenses  |    | 25,744  |  |
| Deferred revenue  |    | 7,548   |  |
| Commercial paper  |    | 11,977  |  |
| Current portion of long-term debt   |    | 6,496   |  |
| Total current liabilities   |    | 100,814 |  |
| Deferred revenue, non-current   |    | 2,836   |  |
| Long-term debt  |    | 97,207  |  |
| Other non-current liabilities   |    | 40,415  |  |
| Total liabilities   |    | 241,272 |  |
| Commitments and contingencies   |    |         |  |
| Shareholders' equity:   |    |         |  |
| Common stock and additional paid-in capital, \$0.00001 par value: 12,600,000 shares authorized; 5,126,201 and 5,336,166 shares issued and outstanding, respectively |    | 35,867  |  |
| Retained earnings   |    | 98,330  |  |
| Accumulated other comprehensive income/(loss)   |    | (150)   |  |

## Benefits of Objective Centric Assurance for SOX and SOX like requirements

© Risk Oversight Solutions Inc

#### **BENEFITS**

- Complies with COSO requirement to determine whether there is "an effective system provides reasonable assurance regarding achievement of an entity's objectives."
- 2. Management alerts external auditors to areas with highest residual risk/uncertainty so they can better focus their audit work.
- 3. This process puts high focus on identification/assessment of risks to help determine resources that should be dedicated to risk treatment design. Current methods often put most time on control testing with limited effort to identify/size risks.

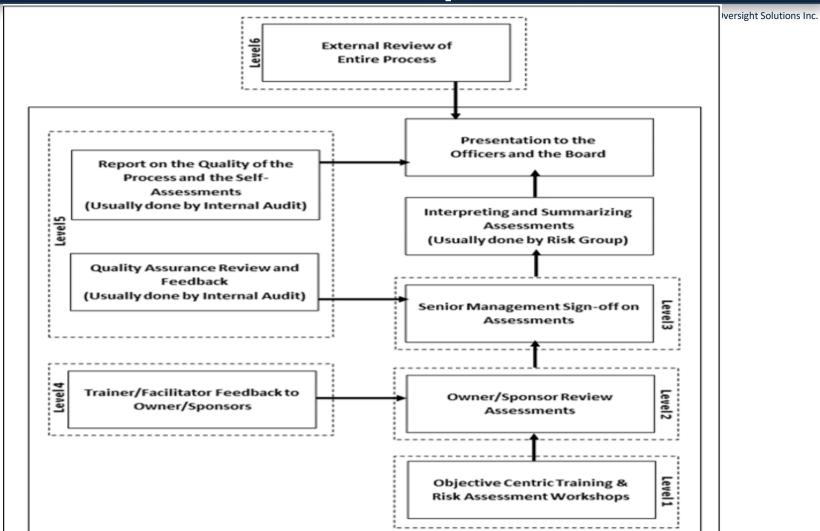

## Benefits of Objective Centric Assurance for SOX and SOX like requirements

© Risk Oversight Solutions Inc

#### **BENEFITS**

- Lays a foundation to fully integrate work done to ensure financial statements are reliable with ERM work on the full range of value creation and preservation objectives.
- 5. Uses a wide range of methods to identify risks, current risk treatments and risk treatments that could be used but aren't currently by many companies.
- 6. Residual risk status/uncertainty information helps management and the board assess if current assurance/uncertainty is "reasonable"/sufficient.
- 7. The Six Level Quality Assurance framework is able to provide high assurance risk/certainty status information is reliable. See next page.
